

Thesis Defense – Characterizing Real-life Graphene Through The Latest First-principles Methodological Developments

Place: 01.00.IC.307 Conference Hall (Módulo 0)

When: 12:00, Friday, 15 April, 2016.

Program: Defense by Ms. Lucía Rodrigo Insausti, [Department of Theoretical Condensed Matter Physics](#), Universidad Autónoma de Madrid.

Title: Characterizing Real-life Graphene Through The Latest First-principles Methodological Developments

Thesis Director: Rubén Pérez and Pablo Pou Bell, [Department of Theoretical Condensed Matter Physics](#), Universidad Autónoma de Madrid.
