

A Current-driven Single-Atom Memory - published in Nature Nanotechnology

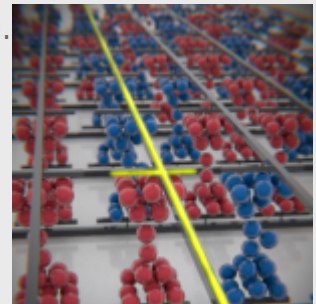

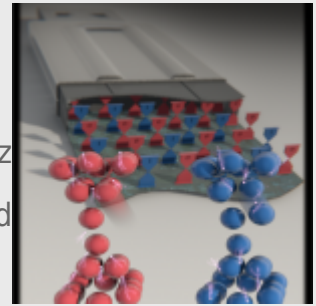

Image credit: Enrique Sahagún, [Scixel](#)

Our work with our colleagues in the University of Konstanz (Christian Schirm, Manuel Matt, Fabian Pauly, Peter Nielaba and Elke Scheer) has been published online in [Nature Nanotechnology](#).

See also the accompanying [News and Views by Sense Jan van der Molen](#).

See also a nice article about our work from Katia Moskvitch in [PhysicsWorld](#).

You can also read a popular article about our work in [2physics.com](#).

You can read more about this story in Spanish in the press [release of the Universidad Autonoma de Madrid](#) or in German in the [press release of the University of Konstanz](#).
