

## Best Theoretical Doctoral Thesis in Condensed Matter Physics 2018

**V**íctor Fernández Hurtado has been awarded by [GEFES](#) with the prize for the Best Theoretical Doctoral Thesis in Condensed Matter Physics 2018. Víctor made his doctoral thesis on “Theoretical description of radiative heat transfer: Exploring the limits of Planck’s law” in the [Department of Theoretical Condensed Matter Physics, Universidad Autónoma de Madrid](#) and [IFIMAC](#) under the supervision of [Juan Carlos Cuevas Rodríguez](#) and [Francisco José García Vidal](#).
